

Concrete Parking Garage Restoration
1410 North Sheridan Road
Evanston, Illinois

Mueller & Associates, LLC (MA) provided professional engineering services as required to restore the basement level parking garage. Special design consideration had to be given in waterproofing the main structural deck, supporting the front drop off and parking area, as the waterproofing system had to be able to perform under new asphalt surfacing.

MA provided the following services-2006:

- Garage Investigation & Testing of Existing concrete substrate
- Construction / Bid Document Preparation
- Bidding Services
